The women who cross borders are on the front line in the fight against systemic and patriarchal violence, against dispossession and exploitation, both in the countries of origin, and those of transit and arrival.

On 24 November 2018 we will be by their side to say no to Salvini’s security.

#PermanentTrouble
#NonUnaDiMeno
Women assert their freedom by fleeing from sexual and work exploitation, domestic violence, sexual and patriarchal violence, and economic violence.

By eliminating humanitarian protection, the Salvini Security Decree eliminates a means to escape violence and makes women's lives more insecure.

**THE SALVINI SECURITY LD LENGTHENS THE PERIOD OF DETENTION FROM 3 TO 6 MONTHS FOR ANYONE WHO LOSES OR IS UNABLE TO OBTAIN A RESIDENT PERMIT**

Rome-Ponte Galeria is one of the largest deportation centres in Italy and today is a migrants’ prison exclusively for women. The Security Decree lengthens the period of detention from 3 to 6 months for anyone who loses or is unable to obtain a resident permit. You can end up in a deportation centre with an expulsion order simply because your employer has fired you from work and you haven’t been able to renew your resident permit.

After being exploited by a sexist and racist labour market, the Security DL imprisons women for deportation.

**THE CLOSURE OF BORDERS HAS INCREASED THE RISK OF FALLING INTO THE HANDS OF TRAFFICKERS**

Tens of thousands of women have been trafficked across the desert and the Mediterranean and have been subject to violence during their journeys. Most of these women have only been accorded human protection, even when they were entitled to refugee status or subsidiary protection.

The elimination of humanitarian protection in the Salvini Security Decree makes it more difficult for these women to renew their resident permit and increases their risk of being exploited.

**LEGAL MEANS OF ENTRY FOR MIGRANT WORKERS HAVE ESSENTIALLY BEEN BLOCKED SINCE 2011**

Since 2011 there has been a rapid increase in the number of asylum seekers and international and humanitarian protection holders employed as cheap labour.

The elimination of humanitarian protection forces these women and men into illegality and deprives them of an instrument for claiming their rights.

The Salvini Decree favours the labour exploitation of migrant women and men, and therefore of all workers.

**THE NUMBER OF WOMEN ASYLUM SEEKERS QUADRUPLED BETWEEN 2014 AND 2017**

Women assert their freedom by fleeing from sexual and work exploitation, domestic violence, sexual and patriarchal violence, and economic violence.

The number of women asylum seekers quadrupled between 2014 and 2017.

**ITALY IS ONE OF THE COUNTRIES WHERE IT IS MOST DIFFICULT TO ACQUIRE CITIZENSHIP**

Besides the length of time required for presenting an application for naturalization (10 yrs through residency, 2 yrs through marriage), the bureaucratic side of the procedure in most cases takes more than 4 or 5 years. The Security Decree lengthens the period for the acquisition of citizenship through marriage and introduces the possibility of annulling citizenship for those people who have obtained it through naturalization or marriage. The Security Decree restricts the possibilities for migrant women and men to access the rights of citizenship, thus rendering all citizens more insecure.

**THE SECURITY DL REMOVES THE POSSIBILITY FOR ASYLUM SEEKERS TO SIGN ON TO LOCAL REGISTERS AND THEREFORE PREVENTS THEM FROM ACCESSING MANY SOCIAL SERVICES.**

As a result, the reception system for migrants will become an emergency system of confinement, which will lead to ghettos and constraints on freedom.

Restricting reception services for asylum seekers affects first of all women.

**SINCE 2011**

The closure of borders has increased the risk of falling into the hands of traffickers.
